These changes only reflect an adjustment of the salary ceilings specified in the policy to the increase in the consumer price index as of the date of the approval of the Previous Remuneration Policy until the date of approval of the New Remuneration Policy at a rate of approximately 10%. This adjustment reflects the Previous Remuneration Policy, the provisions of which established linkage terms for the amounts that stated therein.

¹ See the amended immediate report concerning the convening of a General Meeting dated August 10, 2020, Reference No. 2020-01-086970, as well as an immediate report concerning the results of a General Meeting dated August 19, 2020, Reference No. 2020-01-081319.

This, after the Remuneration Committee and the Company's Board of Directors reviewed during their aforementioned meetings all the considerations required according to the provisions of Section 267B of the Companies Law, and subject to the approval of the General Meeting of the Shareholders that is convened in accordance with this report. So far as the New Remuneration Policy is approved by the General Meeting, it shall take effect immediately on the date of the approval of the meeting, meaning on **October 11, 2023**.

- 3.2 The principles of the New Remuneration Policy were formulated after internal discussions had been held at the Remuneration Committee and the Company's Board of Directors while consulting with financial and legal advisers. The Remuneration Committee and the Company's Board of Directors used the services of a financial consulting firm, which prepared on the eve of the approval of the New Remuneration Policy, a comparative analysis in relation to the remuneration of officers in similar companies to the Company.
- 3.3 The principles of the New Remuneration Policy have been formulated in order to determine a logical, appropriate and fair remuneration for the officers of the Company, which will ensure that the remuneration of officers will coincide with the best interests of the Company and its enterprise-wide strategy for the short term and the long term, while taking into consideration the risk management policy of the Company, and at the same time will increase the solidarity of the officers with the Company and its operations, increase their satisfaction and motivation, and lead to the preservation of the high-quality officers within the Company over time.
- 3.4 It should be noted that while the Remuneration Policy determines, most times, the ceilings of the remuneration to be granted by the Company, the remuneration to be granted to each officer shall be determined by the competent organs of the Company while taking into account his education, skills, expertise, professional experience and/or achievements of the Company's officer, as well as the position the Company's officer, areas of responsibilities and previous wage agreements signed with him.
- 3.5 The following are the principal updates included within the New Remuneration Policy in comparison to the Previous Remuneration Policy²:
 - 3.5.1 **Clause 3.2 of the New Remuneration Policy** – Amending the numerical data regarding the ratio between the cost of the service and employment terms of the officers and the cost of the average and median salary wages of the Company's other employees, in accordance with the actual data at the date of the approval of the New Remuneration Policy by the Remuneration Committee and the Board of Directors.

² It is clarified that the following principal updates are presented in a concise form. The binding format that is presented for the approval of the meeting is the format attached as Appendix A to this report.

- 3.5.2 **Clause 4.1.1 (b) of the New Remuneration Policy - Updating the ceilings of a CEO** – It is proposed to update the ceiling of the monthly salary cost of a CEO in accordance with the increase in the Consumer Price Index (hereinafter: “**the Index**”) as of the date of the approval of the Previous Remuneration Policy until the date of the approval of the New Remuneration Policy so that *in lieu* of a ceiling of NIS 172,000 per month, the ceiling of the monthly salary cost of the CEO will be NIS 190,000 per month. In addition, it is proposed to carry out a corresponding update of the total annual cost of the Company's CEO, for all its components (both fixed components and variable components), in accordance with the aforementioned increase in the Index so that *in lieu* of an annual ceiling of NIS 2,400,000, the annual ceiling will be NIS 2,650,000.
- 3.5.3 **Clause 4.1.1 (c) of the New Remuneration Policy - Updating the ceiling of the monthly salary cost of a Vice President whose place of activity is Israel** – It is proposed to update the ceiling of the monthly salary cost of a Vice President whose place of activity is in Israel in accordance with the increase in the Index as of the date of the approval of the Previous Remuneration Policy until the date of the approval of the New Remuneration Policy so that *in lieu* of a ceiling of NIS 108,000 per month, the ceiling of the monthly salary cost of the said Vice President will be NIS 120,000 per month.
- 3.5.4 **Clause 4.1.1 (d) of the New Remuneration Policy - Updating the ceiling of the monthly salary cost of a Vice President whose place of activity is outside of Israel** – In accordance with the aforesaid in clause 3.5.3 above, in view of the fact that according to section 4.1.1(d) of the New Remuneration Policy, the cost of the monthly salary of a Vice President, whose place of activity is outside of Israel, will not exceed 175% of the cost of the monthly salary of a Vice President whose place of activity is Israel, therefore, the ceiling of the monthly salary cost of the aforementioned Vice President will be updated in accordance with the increase in the Index as detailed in section 3.5.3 above so that *in lieu* of a ceiling of NIS 189,000 NIS per month, the ceiling of the monthly salary cost of the aforementioned Vice President will be NIS 210,000 per month.
- 3.6 Manner of implementing the Previous Remuneration Policy: The remunerations paid in practice to the Company's Chairman of the Board and the CEO during the time period beginning on the date of the approval of the Previous Remuneration Policy, have met the provisions of the Previous Remuneration Policy of the Company, and have not exceeded 100% and 87% of the ceilings stipulated in the Previous Remuneration Policy, respectively, with respect to all of the remuneration components.

3.7 The employment agreements of the Company's officers, which are in effect as of the date of this report, are in accordance with the New Remuneration Policy.

3.8 The identity of the directors who have participated in the approval of the Remuneration Policy:

3.8.1 The Remuneration Committee, at its meeting held on August 15, 2023, decided unanimously to recommend adopting the New Remuneration Policy. The Board members who attended the meeting of the aforesaid Remuneration Committee are Prof. Shoshana Anily (external director), Mr. Aviram Lahav (external director) and Mr. Eytan Stiassnie.

3.8.2 After considering the recommendation of the Remuneration Committee, the Company's Board of Directors, at its meeting held on August 15, 2023, decided unanimously to approve the adoption of the New Remuneration Policy. The Board members who participated in the aforesaid Board meeting are the Chairman of the Board, Mr. Yossi Shachak, Prof. Shoshana Anily (external director), Mr. Aviram Lahav (external director), Mr. Ben Lieberman, Mr. Martin Lieberman, and Mr. Eytan Stiassnie.

3.8.3 In light of the fact that the New Remuneration Policy includes a reference to, amongst else, the remuneration to be paid to directors, all of the directors of the Company might be considered as having a personal interest in approving the New Remuneration Policy. However, in accordance with the Publication of the Staff of the Israeli Securities Authority, "Staff Publication No. 101-6: Amendment 20 to the Companies Law – Questions and Answers" dated January 15, 2013, the directors are not prevented from participating in the discussions of the Board and voting in regards with the New Remuneration Policy in spite of the alleged personal interest in the approval of the New Remuneration Policy, except for those for whom the New Remuneration Policy has consequences that affect them in a unique manner. Accordingly, the Chairman, Mr. Yossi Shachak, did not participate in the discussions held in regard to the components of the remuneration included in the New Remuneration Policy which are relevant to his service as the Company's active Chairman of the Board, and this due to his personal interest in the approval of the aforementioned topic. In addition, The Company's CEO and director Mr. Ben Lieberman and his brother the director, Mr. Martin Lieberman, did not participate in the discussions held in regard to the components of the remuneration included in the New Remuneration Policy that are relevant to the service of Mr. Ben Lieberman as the Company's CEO, and this in light of their personal interest in the approval of the said topic.

3.9 The main considerations and explanations in the resolution of the Remuneration Committee and the Board of Directors

- 3.9.1 After discussing the various components of the New Remuneration Policy, the Company's Remuneration Committee and the Board of Directors have concluded that the New Remuneration Policy is a recommended policy, which balances between the various remuneration components, and is proper and appropriate for the needs of the Company, while taking into account the nature of the Company, whose shares are traded on the Tel Aviv Stock Exchange Ltd., as well as the areas of operation and size of the Company.
- 3.9.2 The New Remuneration Policy expresses different purposes, including promoting the goals of the Company, its work plan, the Company's long-term policy, its strategic goals, financial situation, characteristics, business forecasts, the risk management policy of the Company and the corporate governance norms acceptable within the Company.
- 3.9.3 The New Remuneration Policy expresses the Company's desire to recruit, retain and promote high-quality and experienced officers and to incentivize them. Therefore, the Remuneration Policy encompasses variable components which are intended to provide incentives for the Company's officers to achieve the Company's goals and maximize its profits in the long run. In addition, the New Remuneration Policy might be used to deepen the officer's identification with the Company's goals and values, and accordingly it is intended to ensure professional, efficient and reliable conduct.
- 3.9.4 The New Remuneration Policy is, in fact, identical to the Previous Remuneration Policy, except for the update regarding linking the salary ceilings specified in it to the increase in the consumer price index compared to the index that was known at the time of the approval of the Previous Remuneration Policy at a rate of 10%, when the said linking also stems from the provisions of section 4.1.1 of the Previous Remuneration Policy.
- 3.9.5 The Company's Remuneration Committee and the Board of Directors have determined, amongst else, that in view of all the conditions included in the framework of the New Remuneration Policy regarding the grants that might be granted to officers of the Company, the mechanism of the grants which is included as part of the New Remuneration Policy provides an appropriate incentive to the officers of the Company in achieving the Company's goals and maximizing its profits for the benefit of its shareholders, and is consistent with the provisions of the Companies Law.
- 3.9.6 The Scope of the total remuneration package of officers of the Company, as included in the proposed New Remuneration Policy is appropriate and reasonable in relation to the acceptable remuneration package in the market for officers holding similar positions

within similar companies to the Company, in terms of size and/or field of operation. This is based, amongst else, on the comparative analysis which was conducted by a consulting and financial management firm on the eve of the approval of the New Remuneration Policy, in relation to the remuneration of officers in similar companies to the Company.

- 3.9.7 The Remuneration Committee and the Board of Directors have examined the ratio of the cost of the employment terms proposed in the New Remuneration Policy and the average and median labor cost of the other employees of the Company in Israel, based on the existing wage at the date of the approval of the New Remuneration Policy, and they have stated that these ratios are reasonable under the circumstances, and will not have a negative impact on the labor relations in the Company. In addition, the Remuneration Committee and the Board of Directors have examined the ratio of the variable components and fixed components stipulated in the New Remuneration Policy, and they believe that this ratio creates a reasonable and appropriate incentive system for officers of the Company and takes into account the characteristics of the Company, its business operation and its risk management policy.

In light of the aforementioned, the Remuneration Committee has recommended to approve the New Remuneration Policy, and the Board has approved it.

REMUNERATION POLICY FOR THE COMPANY'S OFFICERS

(Hereinafter: "**the Policy**" and/or "**the Remuneration Policy**")

The definitions and terms in this remuneration policy will have the same meaning as in the Companies Law – 1999 unless defined otherwise in the framework of the Remuneration Policy.

a. **General**

On December 12, 2012 Amendment No. 20 to the Companies Law – 1999 (hereinafter: "**the Amendment**" and "**the Companies Law**", respectively) came into force which deals with arranging the structure of remuneration for Officers of public companies and bond companies, and sets forth a special process for its approval. In accordance with the Amendment, the Company's Remuneration Committee and Board of Directors adopted this remuneration policy.

The considerations which guided the Company's Remuneration Committee (hereinafter: "**the Remuneration Committee**") and the Company's Board of Directors (hereinafter: "**the Board of Directors**") when adopting the policy of promoting the objects of the Company, its work plan and its policy for the long-term; the creation of suitable incentives to Officers in the Company, considering, inter alia, the risks policy of the Company's management; the size of the Company and the nature of its operations, and regarding total terms of service and employment which include variable components – the contribution of the Officer to achieving the Company's targets and enhancing its profits, and all with a long-term view according to the Officer's function.

The Remuneration Policy was prepared noting the nature of the Company as a company operating in the field of industry and technology – the production, marketing and development of textile products.

The principles of the Remuneration Policy were formulated after internal discussions which took place in the Remuneration Committee and Board of Directors while consulting with an external consultant. The principles of the Policy were intended to set a wise, suitable and fair remuneration policy for the Company's Officers, which will ensure that the remuneration of Officers will be compatible with the Company's benefit and its total organizational strategy, while considering the Company's policy of managing risk, and concurrently result in increasing the feeling of identity of Officers with the Company and its operations, increase their satisfaction and motivation, and result in keeping quality Officers in the Company over time.

The indices and the targets set forth in the Remuneration Policy were intended to set a suitably wide framework which will enable the Remuneration Committee, the Board of Directors and Company's CEO, whichever relevant, to set for each Officer a personal remuneration plan or a certain remuneration component, according to circumstances, according to the needs of the Company and which are compatible with the Company's benefit, its employees and shareholders and the total long-term strategy of the Company.

The directives of this Remuneration Policy apply only to the Officers in the Company (as defined by the Companies Law).

The Remuneration Policy is worded in the masculine form for convenience only, but directives will apply both to women and men, without any difference or change.

2. **The ratio between the fixed component and the variable component**

The ratio between the annual cost of the fixed components and the annual cost of variable components to Officers in the Company as determined in the framework of this Remuneration Policy are as follows:

	Rate of fixed component out of total remuneration (%)	Rate of variable component out of total remuneration (%)
Chairman of the Board	55% - 100%	0% - 45%
CEO	40% - 100%	0% - 60%
Any Officer who is not the CEO or a Director (a "Vice President")	45% - 100%	0% - 55%

It should be mentioned that the fixed component is likely to reach a rate of 100% in any year in which the Officer is not entitled to bonuses due to not meeting the criteria set for this purpose, and to the extent that no expense will be recorded for options for that year. The Remuneration Committee and the Board of Directors are in the opinion that the above ratios are reasonable in the circumstances and are derived from the Company's performance and meeting its targets.

3. **The ratio between the terms of service and employment of an Officer and the payroll cost of the other Company employees**

3.1 The Company sees considerable importance in the remuneration of Officers for their contribution to the business's success over time while considering fields of responsibility and the considerable duties imposed on them. The Company also believes that maintaining a suitable and reasonable ratio between total remuneration of Officers and that of the other Company employees is important, including contractors' employees. Consequently, when the Remuneration Committee and the Board of Directors examine approval of the terms of service and employment of

Officers in the Company, they will examine, inter alia, also the ratio between the cost of terms of service and employment of Officers whose terms of employment are brought for approval and the average and median cost of the other Company employees, including contractors' employees, and the effect of the ratio on work relations in the Company. In this clause 3 "**cost of payroll**" means every payment for employment including employer's provisions, payment for retirement, vehicle and the expenses for its use, and every other benefit or payment.

- 3.2 The following is the ratio between the cost of terms of service and employment of Officers whose place of work is in Israel, including contractors' employees who are employed by the Company, to the average median cost of salaries of other employees in the Company whose place of operations is in Israel, based on the existing salary as of the date of approving the Remuneration Policy in the Company's Remuneration Committee and the Board of Directors, and on the assumption that no annual bonuses will be paid:

Rank	Ratio of average of the other Company employees	Ratio of the median salary of the other Company employees
Chairman of the Board of Directors	<u>17.69.1</u>	<u>24.414.6</u>
The Company's CEO	<u>9.79.1</u>	<u>13.511.6</u>
Other Officers	<u>4.66.2</u>	<u>6.47.8</u>

- 3.3 The Remuneration Committee and Board of Directors stipulated that the above ratios are reasonable considering the size of the Company, the nature of its operations, the responsibility imposed on each of the Officers in the Company, the mix of manpower employed in it, the number of employees employed and its field of its operations, and determined that these ratios do not detrimentally affect work relations in the Company.

4. **Fixed component**

4.1 Officers who are not Directors and the Chairman of the Board of Directors

4.1.1 In general, the cost of the monthly salary of Officers in the Company will be determined by the Remuneration Committee and the Board of Directors while relating to the education, qualifications, expertise, professional experience and achievement of each of the Officers in the Company and the function of each of the Officers, fields of his responsibility and previous salary agreements signed with him, and all subject to the following.

- a. The cost of the monthly salary of the Chairman of the Board of Directors will not exceed 11,000 dollars for at least a 20% position.

- b. The cost of the monthly salary of the Company's CEO will not exceed NIS ~~172~~190,000 for a 100% position.

In addition, the aggregate annual cost of the Company's CEO, including all components (fixed and variable, including capital variable component) will not exceed NIS 2,~~400~~650,000.

- c. The cost of the monthly salary of a Vice President whose place of work is in Israel, will not exceed NIS ~~108~~120,000 for 100% position.
- d. The cost of the monthly salary of a Vice President whose place of work is outside Israel, will not exceed 175% of the cost of the monthly salary of a Vice President whose place of work is in Israel (equal in the currency of the place of work to NIS ~~189~~210,000), for a 100% position.

5.1.1 Threshold conditions – the accumulative threshold conditions for distributing a bonus are (a) meeting the EBITDA target on a consolidated basis and/or of an operating segment as to Officers reporting to the CEO whose activities are in a specific operating segment, as defined each year by the Remunerations Committee and Board of Directors; and (b) the existence of annual profit (after taxes on income) after payment of bonuses in the Company's consolidated financial statements.

Despite the above, the Board of Directors shall have the right at any given year, after receiving the approval of the Remuneration Committee, and pursuant to the recommendation of the CEO, to determine that with respect to one certain Officer reporting to the CEO, whose contribution to enhancing the Company's results in the relevant year, according to the Board of Director's exclusive discretion, was the most valuable, threshold (a) only shall apply for distributing a bonus, without threshold (b).

5.1.2 Criteria for calculating the bonus

5.1.2.1 Targets will be set for every Officer which will be approved by the Remuneration Committee and the Board of Directors. These targets will derive, inter alia, from the Company's work plan, and will be divided into three categories of measurement as follows, each of which will be given proportional weight, as detailed below:

- a. The Company's targets (consolidated EBITDA target and/or of an operating segment as to Officers reporting to the CEO whose activities are in a specific operating segment) – the weight given to this category is between 45% -75%.
- b. Personal targets (such as sales target and balances of cash target) – the weight given to this category is between 15% - 45%. The targets according to this sub clause above may include, inter alia, long-term targets.
- c. Evaluation of performance by the Company's CEO (and regarding the Company's CEO – by the Board of Directors). The evaluation will relate, inter alia, to criteria which are not financial. The CEO's evaluation will relate, inter alia, to the long-term contribution of the Officer and his long-term performance – the weight given to this category is 0% - 40%.

It should be mentioned that regarding the Company's CEO, the Remuneration Committee and the Board of Directors may set Company targets only (100%).

It should be clarified that the weight given to each of the above three categories will stand at 100%.

Details of the targets in all categories measured and the proportional weight of each of the measured categories will be decided by the Remuneration Committee and the Board of Directors once a year for every Officer separately, according to circumstances.

5.1.2.2 Notwithstanding the aforesaid, the Company's CEO may, with the approval of the Remuneration Committee and the Board of Directors, approve payment of an annual bonus to Officers reporting to the CEO, per his discretion, according to criteria which cannot be measured, and this instead of or in addition to the bonus calculated according to the criteria mentioned above, provided that the total annual bonus for each of the Officers will not exceed the maximum annual bonus stated in clause 5.1.5 below.

5.1.2.3 The Remuneration Committee and the Board of Directors may determine that in the framework of the annual bonus granted to the Company's CEO a bonus of up to three monthly salaries (gross without social and related benefits), according to criteria which cannot be measured, considering his contribution to the Company, and this instead of or in addition to the bonus calculated according to the criteria mentioned above, provided that the total annual bonus to the Company's CEO will not exceed the maximum annual bonus stated in clause 5.1.5 below.

In the event that in a given year the CEO shall be paid both a bonus according to criteria which cannot be measured as stipulated in this clause 5.1.2.3 and a special bonus as stipulated in Section 5.2 herein, the aggregate amount of both bonuses shall not exceed three monthly salaries (gross without social and related benefits) in such year.

5.1.3 Method of calculating the bonus – Each Officer will be given a personal annual bonus being the product of the number of salaries to be determined in advance for every Officer (hereinafter: "**the object bonus**") by a coefficient which will reflect the method of achieving the personal program's target set for the Officer. This coefficient can be lower than 1 (if the Officer achieved only part of the personal program's target) and can be higher than 1 (if the performance of the Officer actually exceeded those set for him as a target), provided that the value of the coefficient will not exceed 1.2. The bonus will be calculated for every component separately and the total bonuses which will be calculated for all the components will be the bonus calculated for every Officer. Calculating the value of each of the coefficients for each of the components of the personal plan will be carried out in the following way: should the rate of meeting the target be less than 80%, the value of the coefficient will be equal to 0; should the rate of meeting the targets be in a range between 80% - 100% the value of the coefficient will range between 0.7 (or a lower rate as decided by the Company's Remuneration Committee and the Board of Directors) (for 80%) to 1 (for 100%), when within this range the coefficient will be calculated linearly; should the rate of meeting the target be in the range 100.01% and 120% the value of the coefficient will range between 1 to 1.2, where within this range the coefficient will be calculated linearly.

5.1.4 Calculation of a bonus for a partial period of employment – in the event in which the work relations between an Officer and the Company will start or end during a calendar year, the amount of the annual bonus will be calculated according to this

Remuneration Policy, subject to the threshold conditions stated in it, while the amount of the annual bonus will be amended and calculated proportionally according to the period of employment of an Officer for part of the year. It should be mentioned that if a balance sheet target is defined, the target will relate to the last balance sheet published at the end of the relevant year (in the event of the start of service during that year), or immediately prior to the end of employee - employer relations (in the event of termination of employee - employer relations). Payment of this bonus, will be carried out according to this Policy and not at the end of employee - employer relations. The aforesaid does not derogate from the provisions of clause 5.4 below regarding the possibility to reduce the bonus, fully or partly, at the discretion of the Board of Directors.

5.3.2 The obligation of the Officer to repay amounts will not apply and Company will not pay the Officer any amount, as mentioned in clause 5.3.1 above, should the Remuneration Committee and the Board of Directors determine in special circumstances that the repayment of the bonus (or partial repayment) is impossible or inapplicable from a commercial and/or legal aspect.
